

México Country Fact Sheet

Region: Latin America & Caribbean
Income Group: Upper middle income
Area: 1,964,375 km²
Population: 127,017,224
Major cities: Mexico City, Monterrey, Guadalajara

Population growth
1.2% (2017 estimate)

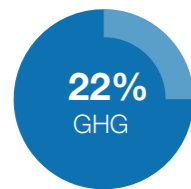

GDP nominal 2016
1,047 US\$

GDP growth rate
2.3% 2016

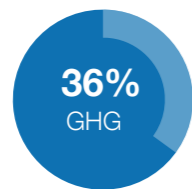

NDCs and emissions scenarios

2030 reduction goals

Unconditional

Conditional

Type of GHG target: Baseline

Sector and gas coverage of GHG targets: All IPCC and six gases under Kyoto Protocol

Specific targets for building sector on NDCs: no

The building sector

Minimum Energy Performance Standards:

Yes. Mandatory for residential and non-residential buildings.

Energy conservation / green building code:

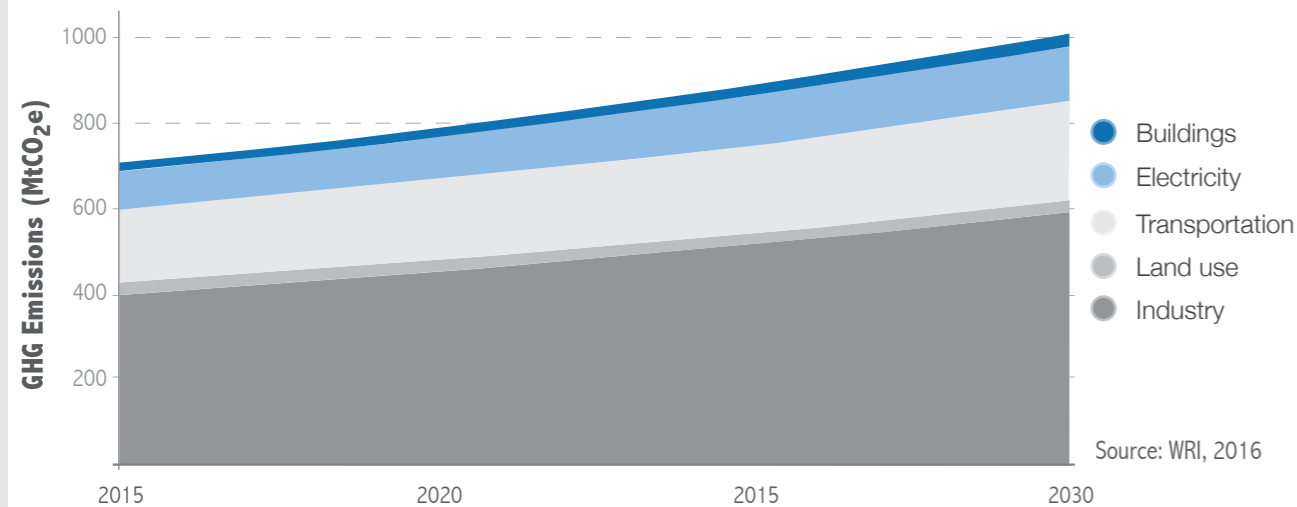

Yes. Voluntary for residential and non-residential buildings.

Reference energy consumption kWh / m² / year

	Hot dry	Hot humid	Temperate
Hotels	170	200	120
Office	120	200	70
Schools	60	70	40
Hospitals	260	350	220
Restaurants	325	350	240
Retail	190	265	155
