

PEEB Climate Finance Incubator

Unlocking climate financing for buildings

PEEB Climate Finance Incubator (CFI) works to improve the financial, strategic, and regulatory frameworks for climate mitigation in buildings. PEEB CFI supports policymakers and the private sector to lay the ground for climate finance and to boost investment in sustainable buildings.

The programme pilots innovative approaches through methodological work on Article 6 of the Paris Agreement for buildings. PEEB CFI is active in **Indonesia**, **Morocco**, and **Nigeria**. It aligns with ongoing international climate finance debates, building technical capacity to unlock private and public investment.

Article 6

- Establishing robust, **best-practice methodologies** for Article 6 projects for buildings
- Identifying and developing **climate mitigation projects** for the buildings sector under **Article 6**

Baseline Studies

- Developing **baseline studies and scenarios** for greenhouse gas emissions in the buildings sector
- Supporting partner countries in strengthening **data availability and quality** in the buildings sector

Financial Incentive Mechanisms

- Conducting market analyses and assessing business models to explore different **financing options**
- Providing technical assistance to develop **funding programmes for climate mitigation in buildings**

PEEB CFI is a programme under the umbrella of the Partnership for Energy Efficiency in Buildings (PEEB). PEEB is currently funded by the German Federal Ministry for Economic Affairs and Climate Action (BMWK), the French Ministry of Ecological Transition and Territorial Cohesion (MTECT), the Green Climate Fund (GCF), the European Union (EU), the Agence Française de Développement (AFD), the International Climate Initiative (IKI), and the Fonds Français pour l'Environnement Mondial (FFEM). The Partnership is part of the Global Alliance for Buildings and Construction (GlobalABC).
